EAN code: 5907729491308

### ITEM DESCRIPTION

Filament by eMce3D has been developed for entry and semi-advanced users of the FDM technology.

Only original raw materials and dyes are used for the production. Perfect purity assures the same printing parameters for any colour used. Guarantee of high class prints, which will meet your expectations! Produced filament has very low shrinkage. Very good layer adherence lets you to have your prints have better mechanical strength.

Filament is designed for home usage. Nevertheless, the prints are repeatable and of excellent quality even when printing detailed models. The filament can be used in virtually any 3D printer using FDM technology.
